

# OutOfLine

The lines are not the boss of me!

**Go on. Get carried away.**

A colouring book for curious minds

**YOUR IMAGINATION STARTS HERE**

# Look. Colour. Look again.

Start with what you see. A house? An umbrella? A flower?

You can colour that picture any way you like.

## **To try the hidden picture:**

1. Find the suggested colours at the bottom of each page.
2. Match your pencils or crayons to those colour boxes.
3. Use the same colour wherever you find that number.
4. Colour across the thin decoration lines.
5. Stop at the thick lines. Then look again.

Or invent a third picture. Add something nobody else sees.

## **For a grown-up**

This is a reconstruction to review together, not a finished edition.

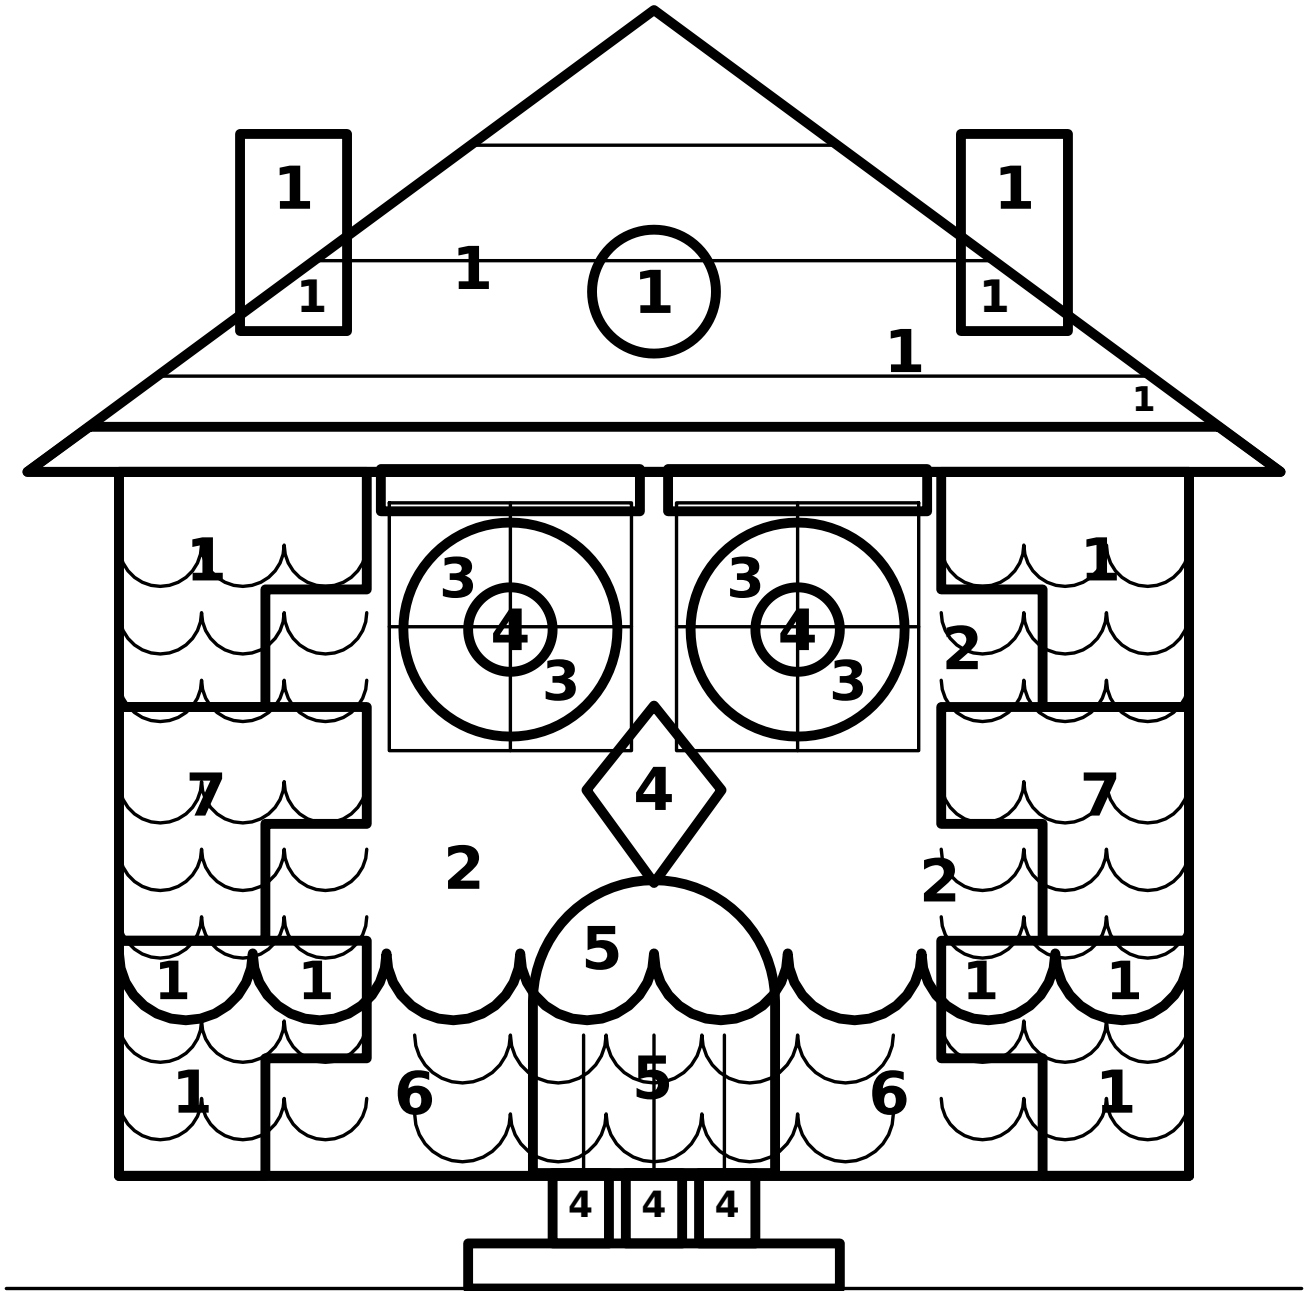

Some spaces are small; younger children may want a helper.

You can follow a palette or invent your own colours.

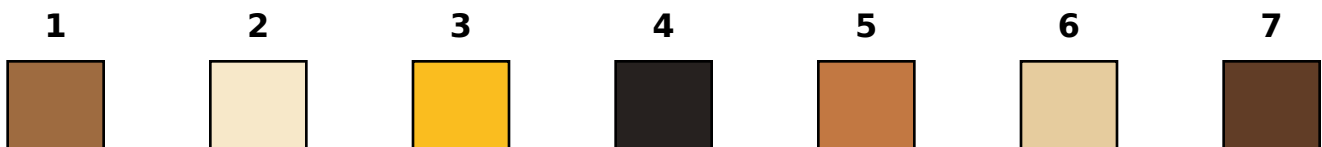

**The lines are not the boss of you.**
