

OutOfLine

The lines are not the boss of me!

Go on. Get carried away.

A colouring book for curious minds

YOUR IMAGINATION STARTS HERE

Look. Colour. Look again.

Start with what you see. A house? An umbrella? A flower?

You can colour that picture any way you like.

To try the hidden picture:

1. Pick a different colour for each number.
2. Fill the colour boxes at the bottom of the page.
3. Use the same colour wherever you find that number.
4. Colour across the thin decoration lines.
5. Stop at the thick lines. Then look again.

Or invent a third picture. Add something nobody else sees.

For a grown-up

This is a reconstruction to review together, not a finished edition.

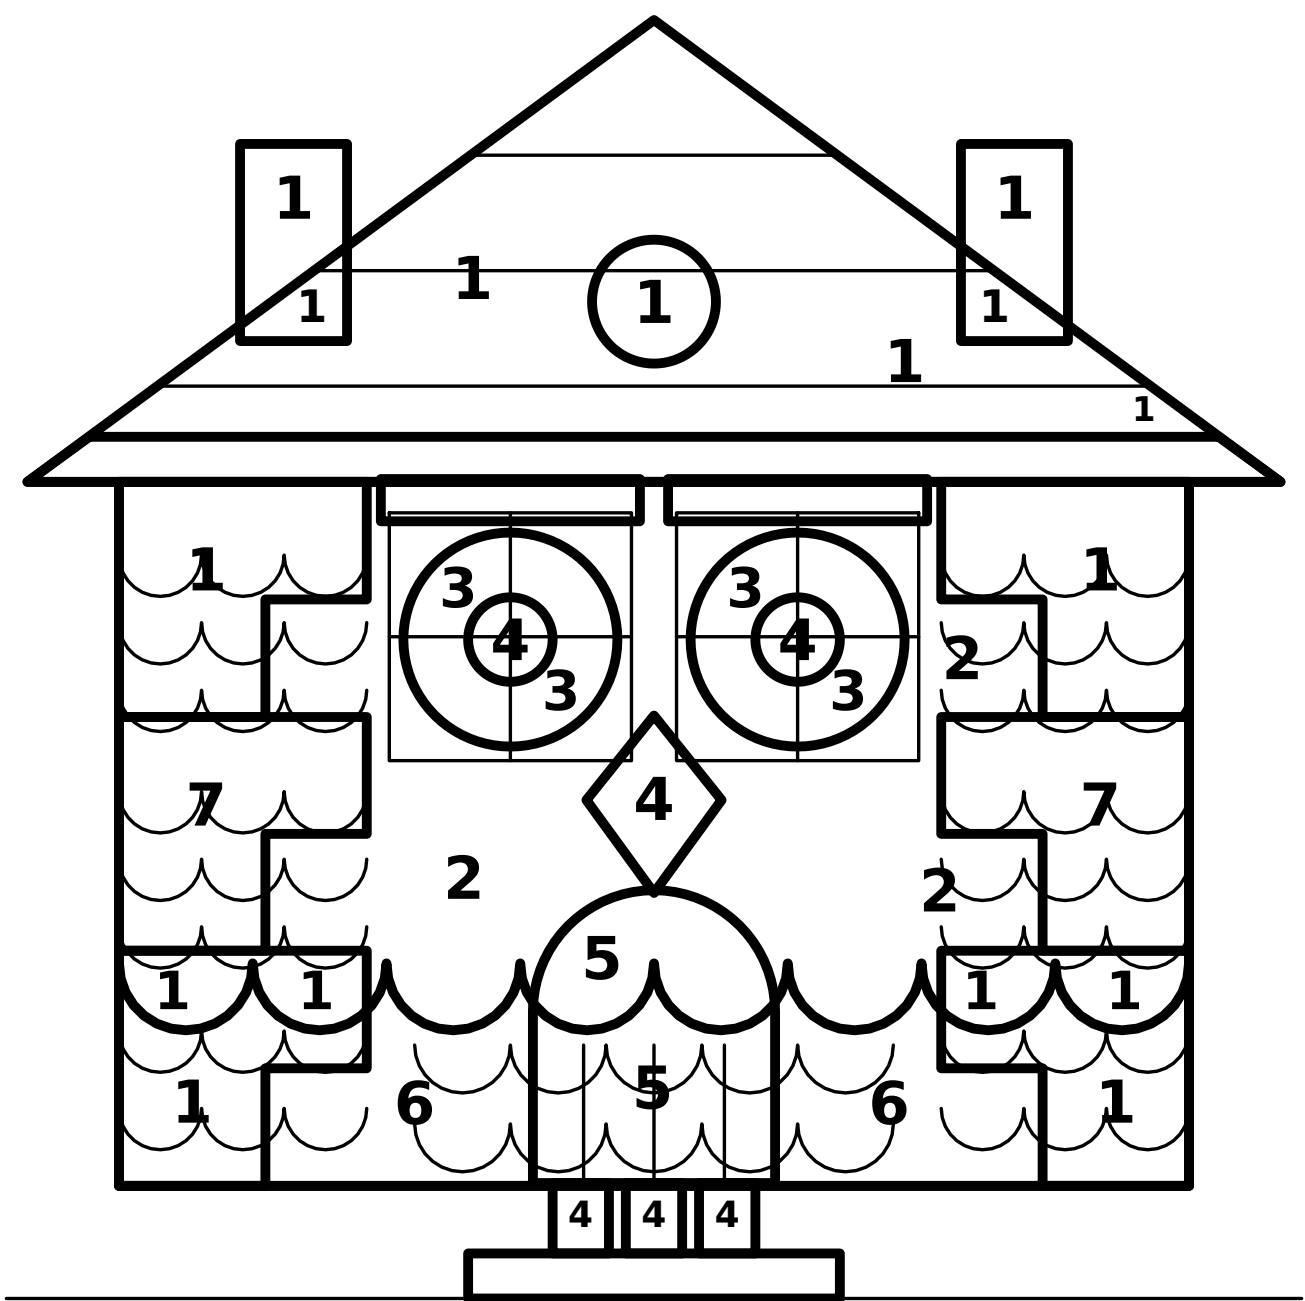

Some spaces are small; younger children may want a helper.

The examples at the back show just one possible colour palette.

The lines are not the boss of you.
